

## High-Ratio Insured (Purchase) Mortgage Rates

Time Period: August 2022 to April, 2024

We compiled this based on our own tracking of one of our preferred “A” lender's rates for high-ratio mortgage default-insured mortgages (ie. CMHC).

Above assembled by: Trevor Hickey with Concord Mortgage Group Ltd.

### Please Note / Disclaimer(s)

Some of the rates shown may be for promotions and subject to conditions/terms which may not apply to all rates in the same column/chart and/or may result in differing compensation to brokerage and therefore a bit of comparing apples-to-oranges.
